Our Claims Service

Striving to make the claims settlement process as smooth as possible.

Many people measure a broker's performance by their ability to reduce the premium to the lowest level without being absolutely clear what they are buying for that premium.

The only thing you get from an insurance company is a "promise to pay" in the event of certain circumstances occurring and if that promise does not materialize then the premium is totally wasted

We obviously work hard to maintain competitive premium levels but not at the expense of the claims service or policy coverage.

No matter how hard you work to protect your business, claims will arise and in that even the difference between an average Insurance Brokerage and a superior one will be made clear to you.

At Hallsdale Commercial, we pride ourselves in our claims service which will include involvement by your own dedicated Account Handler from beginning to end, ensuring that we obtain the quickest and best claims payment for you.

In essence by working closely with your insurer and/or loss adjuster we strive to make the claims settlement process as smooth as possible.

In addition, we have arranged for a specialist facility to provide chartered loss assessors fees insurance which combined with our own claims service can provide the ultimate solution for you in the event of a major catastrophe. If you would like further details of this service please contact our office.
