Motor Fleet and Company Car Insurance

The easy way to provide comprehensive cover for your company vehicles

Motor Fleet and Company Car Insurance is essential for businesses that run at least two company vehicles. Affordable cover can be tailored exactly to the size of fleet, and to any mix of vehicles or usage.

Your Insurance policy can include cover for:

- Cars used in connection with a business
- Goods-carrying vehicles
- Passenger-carrying vehicles (minibuses, coaches and buses)
- Private, public and self-drive hire vehicles
- Vehicles of special construction (special types).

Fleet Insurance provides a compliant and competitive insurance solution for company vehicles that are insured on a single policy with the same renewal date and one premium. They provide excellent flexibility, reduces administration and saves management time.

Fleet Insurance provides:

- Comprehensive cover against damage, fire, theft and third party claims
- 'Any driver' cover on most vehicles
- A 24-hour claim and accident helpline
- Courtesy cars when yours are off the road due to accident (provided an approved repairer is used)
- European cover if required.
