Insurance for Wholesalers and Retailers

Bespoke cover arranged by professionals who understand your business

Specialist wholesalers and retailers require bespoke cover arranged by professionals who understand their business and who have access to a wide range of policies aimed specifically at your own particular hazards.

Whether you supply complex finished products or simple components, no two businesses are the same and the hazards can be quite different. At Hallsdale Commercial we have experience in your trade sector and have identified specific policies and insurers for you.

The policies we offer have been developed in conjunction with a variety of insurers and cater for even the most complex of situations.

We realise the extent of potential risks and problems you face, and the covers provided can include the following:

- Material damage – ‘All Risks’ cover, covering assets at your own premises and elsewhere.
- Business interruption – Loss of gross profit that can be extended to include:
 - Prevention of access
 - Loss of public utilities including advanced communication dependencies
 - Suppliers – including datacentres
 - Customers
 - Research and development
 - Book debts
 - Murder, suicide and infectious diseases.
- Goods In transit
- Computer all risks
- Employers liability
- Public and products liability
- Product recall
- Product guarantee.

Furthermore, as companies expand not only within the UK but increasingly into Europe and further afield, we are asked to provide cover on a multinational basis. It is therefore comforting to know that under our special facilities and in partnership with our suppliers we have a multinational capability allowing us to provide cover worldwide.
